PLAN INFORMATION

2002 SQ. FT. | 3 BEDS | 2.5 BATHS | 2 CARS | WIDTH 51' 4" | DEPTH 42' 8"

WALL HEIGHTS 8' OR 9' | UNFINISHED FULL BASEMENT

The final set of house plans or garage plans will include the following:

- Detailed elevations of all sides showing exterior finishes, wall heights, finished grades, and footing depths.
 - Foundation plan with detailed structure such as floor joists, steel teleposts, steel beams, deck support, and bearing walls.
 - Floor plans showing roof structure, steel or wood beams, floor joists, posts, and bearing walls.
 - Wall details and/or Cross section cut through house or garage.
 - Signed designer form with registered BCIN number. Designer BCIN number and signature also included on all copies of blueprints. (Ontario residents only)
 - Energy efficiency design summary form (Ontario residents only)
 - 5 copies of blueprints drafted to scale approved by the Ontario Building Code.
 - Final house plans and garage plans in PDF format. Excellent for emailing house plans and garage plans to builders and trades for pricing.
- Canadian Home Designs does not include material lists, electrical, plumbing, HVAC, site plans, or any specific engineering that may be required.
